AIM
ALLEN INTELLIGENT MENTOR · ALLEN INTERACTIONS

Better performance. Guaranteed.

AIM starts with the KPI you need to move, gives your people the practice that moves it, and proves it moved. If it doesn't, you don't keep paying.

HOW IT WORKS

AIM doesn't wait for your people to find it. It comes to them.

01
Start with the number
Leadership names a business metric that needs to move.

02
Find who and what
AIM pinpoints the skill gaps behind it and the people who have them.

03
Book the time
The Concierge offers short sessions that fit each person's calendar.

04
Practice the real moment
Realistic scenarios with immediate, targeted feedback.

05
Prove it moved
Spaced follow-ups lock in the skill, and AIM logs the evidence.

WHAT YOU GET

One partnership. Everything included.

- **The Mentor** determines exactly which skills each performer needs to develop.
- **Custom design and development** from our studio, built from your data and your real job scenarios.
- **A full LMS at no cost to you,** so you can drop separate LMS licensing.
- **The Concierge** brings the learning to each performer at just the right time.
- **Measurement and analysis** that ties skills to business performance, not completion rates.
- **An embedded team that keeps working:** updating content, building performance support, and tuning AIM as results come in.

THE ALLEN GUARANTEE

We carry the risk. You keep the results.

MONTHS 1–12
Everything it takes.
All the training needed to move your numbers, built and delivered for a fixed monthly fee.

MONTH 15
Our time, not your money.
If performance hasn't moved, your fees stop and our work doesn't.

MONTH 18
Your exit, fully loaded.
Haven't hit the targets? The courses are yours, and the platform is free through the end of the term.

"When it's time to perform, it's too late to practice."
